

Application Form

Your Name:				
Your Company:	Country:			
Your phone number:				
Company/factory where the measurement is required:				
	Country:			
Industry sector:				
Product to be measured:				
PRODUCT AND PROCESS INFORMATION				
Chemical composition (substances and chemical product description):				
Average pH value:				
 In case of pH variation, the range is from 	to			
Product state (select the one that better corresponds):				
Real solution - no solids present				
Homogeneous mixture				
Heterogeneous mixture suspension				
Slurry / mud				

The instru	ment should measure	e:				
[Dry matter content (DMC) in %					
[Densinity, in kg/m³ or g/L					
E	Brix					
7	Turbidity, in ppm or %					
(Other, please specify:					
Measuring va	lue (specify unit, e.g. S	%, kg/ı	m³, etc.):			
 Average 	value					
Range: fr	rom		to			
Temperatur	e:					
Average	temperature			°C		
Range: fr	om	°C	to	°C		
Preasure:						
 Average 	value			bar		
Range: fr	rom	bar	to	bar		
Process type	e:					
	Continuous					
	Batch					

Mearsuring point:					
Tank/read	Tank/reactor				
•	Volume:				
Pipe					
•	Material:				
•	DN	and PN			
•	Length:	meters			

• Product flow rate (specify unit):

vertical

horizontal

Ex-protection needed?

No

Yes, protection grade:

Average ambient temperature at the installation point:

ANSI:

Orientation:

°C

Please provide us with pictures of the expected installation point/points and/or with technical drawings, if possible.
